

- A range of brass fittings from 12 to 32 mm.

Fördelar

TurboPex compression fitting benefits

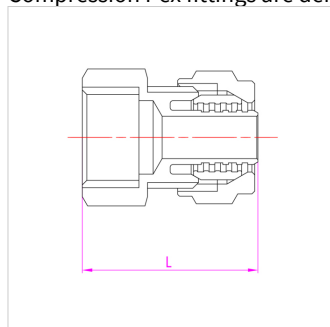

- Versatile TurboPex compression fittings can be used in drinking water installations, heating, chilled water, underfloor heating and sanitary systems.
- This wide product range fits into most hydraulic network configurations.
- Implementation with TurboPex compression fittings is quick and easy. Two open-end spanners are all you need.

Tekniska data

PEX system is designed for the following applications:

- Sanitary water: +5 °C to +70 °C (operating temperature) and 6 bar (maximum operating pressure).
- Heating and cooling: +5 °C to +70 °C (operating temperature) and 6 bar (maximum operating pressure).
- Rainwater: +5 °C to +70 °C (operating temperature) and 6 bar (maximum operating pressure).

Compression Pex fittings are demountable and therefore can't be installed in recessed installations

Typ	Dimension [mm]		Flamco nr.
